GREEN COLD CHAIN

THE WORLD'S FIRST FOSSIL FREE, DEDICATED
RAIL SOLUTION FOR CONDITIONED GOODS.

Sustainable

Fast

Cost-efficient

Initiator:

Program-partners:

UNIT45

Temperature controlled rail solution between Europe and China (and vice versa)

■ Future concept – go live Q4 2018

- ✓ Year-round solution
- ✓ NSWL owned reefer container
 - ✓ Improved design for extreme conditions
- ✓ Offered temperature ranges: TBC

GREEN COLD CHAIN

THE WORLD'S FIRST FOSSIL FREE, DEDICATED
RAIL SOLUTION FOR CONDITIONED GOODS.

Sustainable

Reliable

Controlled

GREEN COLD CHAIN

Use of most advanced biofuels :

- Climate-neutral climate conditioning
- Through advanced, waste-based biofuels
- Guaranteed sustainability
- Lab tested from - 45°C up to +45°C

GREEN COLD CHAIN

Uniquely designed reefer containers:

- 45 foot
- Remote security
- GPRS monitoring + 2-way communication
- Designed for extreme conditions

GREEN COLD CHAIN

Everything under 1 roof:

- 1 multimodal railway bill
- 1 liability
- 24/7 monitoring
- dedicated, owned material
